“ David helped me several times thru the years with a flat tire, dead battery, renting a Uhaul, and getting me into my car when I locked my keys in it, multiple times. I had his number stored in my phone and had the opportunity to share it with employees and customers at work who needed an honest, dependable person to help in a time of need. Each time I shared his number, I told whomever was needing something, that they could trust this guy. Those kind of guys are few and far between these days. He will be missed by many. Rest in peace.
